

PROJECT ARCHITECT POSITION

WHO WE ARE

MARCH STUDIO is a close-knit team of architects, designers, and creative professionals that helps community-based organizations, nonprofits and social entrepreneurs realize their mission and make a positive impact through architecture and design.

YOU'RE THE RIGHT FIT IF...

- You're inspired to live a more purposeful life, personally and professionally, and want to make a positive impact on your community.
- You have a passion for social innovation and community-based clients and projects.
- You're seeking to contribute to the shared knowledge within the office and enjoy working collaboratively.
- You are innately creative and committed to generating inspiring design solutions.

YOUR SKILLS + ATTRIBUTES

- 7+ years of post-graduate experience.
- Keen design sensibility.
- Experience across a variety of projects with a preference for cultural and educational tenant improvements.
- Production experience for all phases of the project from Concept Design through Construction Observation.
- Knowledge of primary engineering disciplines and coordination.
- Skilled use of architectural design and documentation software (ArchiCAD BIM experience is a major plus).
- Receptive to learning from others and teaching younger members of the office.

ABOUT THE ROLE

As our PROJECT ARCHITECT, you'll work directly with the Principal Architect and be a primary client-facing contact, providing leadership and guidance to the project team.

Your core responsibilities as project architect:

- Collaborate with the Principal Architect and project team members to generate design solutions.
- Lead the team in the preparation of feasibility studies, including careful assessments of jurisdictional planning requirements.
- Ensure the quality, accuracy, and professionalism of the instruments of service and the facilitation of the final architectural product.
- Manage consultant teams through all project phases as well as build and nurture relationships with clients.
- Clearly and thoughtfully present to the client, consultants, and other stakeholders.
- Resolve complex technical/design issues and detailing.
- Actively participate and contribute to the financial performance and maintain an awareness of the scope, schedule, budget, and status of all assigned projects.
- Provide guidance and mentorship to the team.

ADD'L INFO

At MARCH STUDIO, everyone is valued and treated with respect, and work-life balance is an essential aspect of professional and creative growth. For this reason, team members tend to stay with the studio for many years.

Hours are flexible with hybrid work from home options. Compensation will be commensurate with experience.
